This announcement is made by G-Prop (Holdings) Limited (the “Company”, together with its subsidiaries, the “Group”) pursuant to Rule 13.09 of Rule Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (“Stock Exchange”) (the “Listing Rules”) and Inside Information Provisions under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of Laws of Hong Kong).

BACKGROUND

The board of directors (the “Directors”) of the Company (the “Board”) hereby announces that, on 22 April 2013, the Company entered into a non-legally binding strategic framework agreement (the “Agreement”) with certain third parties (collectively, the “Co-operative Parties”), details of which are set out under the section headed “Background information of the Agreement” below, for the proposed development of health management business in the People’s Republic of China (the “PRC”).

BACKGROUND INFORMATION OF THE AGREEMENT

Date:

22 April 2013

Parties to the Agreement:

- (1) The Company; and
- (2) The Co-operative Parties, namely
 - (i) AMAbiotics SAS;
 - (ii) 東莞南方醫大代謝醫學研發有限公司 (Dongguan Southern Medical University Metabolic Medicines Research and Development Company Limited*);
 - (iii) 廣東省醫療行業學會 (Guangdong Medical and Health Care Industry Association*);
 - (iv) Chinese Association for Science and Business;
 - (v) 美國抗衰老聯盟 (American Anti-aging Alliance*);
 - (vi) Guangdong Food and Drug Vocational College;
 - (vii) 中國香港醫療衛生學會 (China-Hong Kong Society for Medical and Health Care*); and
 - (viii) Da An Gene Co., Ltd. of Sun Yat-sen University.

To the best of the knowledge, information and belief of the Directors, having made all reasonable enquiry, as at the date of the Agreement, each of the Co-operative Parties and their respective ultimate beneficial owners is a third party independent of and not connected with the Company and is not a connected person (as defined in the Listing Rules) of the Company.

PARTICULARS OF THE AGREEMENT

The Agreement stated, among other things, that:

- (i) the Company and the Co-operative Parties intend to engage in joint research projects and implement high-technology development proposals in the health management area;
- (ii) the Co-operative Parties, by leveraging on their respective strengths in research and development capacity, access to international academic arena and valuable brand names, intend to give various support to the Company aspects of medical service innovation, bio-technology treatment and bio-medical treatment;
- (iii) the Company intends to invite the Co-operative Parties to co-develop health management projects by building up and sharing health management resources covering the technological, academic, customer and brand name aspects;
- (iv) the Company intends to invite the Co-operative Parties to establish a joint venture (the “Joint Venture Company”) for the purpose of the proposed development in the health management business in the PRC.

The Board wishes to emphasize that the co-operation under the Agreement, which is non-legally binding, is preliminary in nature and such co-operation (if any) is subject to the entering into of the definitive agreement(s). As at the date of this announcement, none of the members of the Group has entered into any legally binding agreements with any of the Co-operative Parties or other parties for the development in health management business or the establishment of the Joint Venture Company. The Company and the Co-operative Parties will conduct further negotiations on the definitive terms and conditions of the co-operation. Further announcement(s) will be made by the Company as and when necessary.

REASONS FOR THE AGREEMENT

The Group has been principally engaged in investment and finance as well as properties investment business. The Directors consider it is to the benefit of the Group's future performance and in the interests of the Company's shareholders as a whole to expand into other new business segments that could generate more income for the Group as and when an opportunity emerges.

The sharp fall in both world-wide birth rate and death rate that have resulted in the aging global population is an acknowledged phenomenon. In more advanced and developed countries, with people generally having better access to information, there is a greater awareness of the importance of good health, contributing to more generous spending on medical, health care and physical well being.

In view of the above, the Directors believe in the prospect of the health management businesses. The Group intends to line up certain leading domestic and overseas players in the relevant areas to explore and expand into the health management industry in the PRC through the launching of health management projects. In the long run, it is a Company's goal to create a pool of global premium medical resources and construct a leading model in health management. In future, the Company plans to set up a number of chained health management businesses in the PRC to provide personal health management services to high-end segment in the population under all three status of heath, sub-health and ill. The Company intends that such health management services will be provided by a team of renowned domestic and international experts, with the application of functional medicine, sleep medicine, genomics, stress medicine and physical fitness medicine, among other latest medical means, supported by a digital health care filing system. High quality and appropriate domestic and overseas medical resources will be selected and offered to clients according to their status and needs. The services will assist the clients to formulate specific health management solutions through health maintenance, risk assessment, anti-aging, restoration from sub-health, illness prevention, treatment of illness, and recovery from illness.

The Board believes that the entering into of the Agreement with the Co-operative Parties is the first step of tapping into the health management business and commencing a new phase of development to the Group.
